

Accessible taxis for wheelchair users

Drivers of designated wheelchair accessible vehicles must now provide assistance to wheelchair users and are not allowed to charge extra for a fare.

Section 165 of the Equality Act came into force in April 2017 and places certain duties on drivers of designated wheelchair accessible vehicles, which include:

- To carry a passenger while in the wheelchair
- Not to make any additional charge for doing so
- If the passenger chooses to sit in a passenger seat to carry the wheelchair
- To take such steps as are necessary to ensure that the passenger is carried in safety and reasonable comfort
- To give passengers such mobility assistance* as is reasonably required

*The Act defines mobility assistance as:

- To enable the passenger to get into or out of the vehicle
- If the passenger wishes to remain in the wheelchair to enable the passenger to get into and out of the vehicle while remaining in the wheelchair
- To load the passenger's luggage into or out of the vehicle
- If the passenger does not wish to remain in the wheelchair, to load the wheelchair into or out of the vehicle.

Drivers are also expected to provide assistance such as folding manual wheelchairs and placing them in the luggage compartment, installing the boarding ramp or securing a wheelchair within the passenger compartment.

The meter should not be left running whilst the driver performs any of the above duties.

Some drivers may have a medical condition or a disability or physical condition which makes it impossible or unreasonably difficult for them to provide the sort of physical assistance which these duties require. If this is the case, the driver will be in possession of an Exemption Certificate which is provided by the Council which will be displayed within the vehicle.

PLEASE NOTE: Every vehicle on the designated list has the capacity to accommodate a "reference" wheelchair. It is advisable when making your booking to ensure that the operator has a suitable vehicle to accommodate your specific wheelchair or mobility requirements. It is possible that vehicles on this list cannot accommodate larger types of wheelchairs.
