General comments: Vehicular access to the site is over Ripley Footpath 100. I have concerns that the development would result in increased vehicular use of this path. It is necessary for the planning officer to be certain that the safety of walkers on the path would not be affected by the development e.g. is there space for walkers to avoid vehilces, will vehicle users be aware of the possible presence of walkers, etc**Confirm you are human:GDPRTick this box to confirm that you have read and understood the above:**True
