Notes
Attention is drawn to the attached notes:

1 The application site and access to it is affected by Public Rights of Way (Footpaths 14 and 16 Pentrich on the Derbyshire Definitive Map). The routes must remain unobstructed on their legal alignment at all times and the safety of the public using them must not be prejudiced either during or after development works take place. Further advice can be obtained by calling 01629 533190.

Please note that the granting of planning permission is not consent to divert or obstruct a public right of way. If it is necessary to temporarily obstruct a right of way to undertake development works then a temporary closure is obtainable from the County Council. Please contact 01629 533190 for further information and an application form.

If a right of way is required to be permanently diverted then the Council that determines the planning application (The Planning Authority) has the necessary powers to make a diversion order.

Any development insofar as it will permanently affect a public right of way must not commence until a diversion order (obtainable from the planning authority) has been confirmed. A temporary closure of the public right of way to facilitate public safety during the works may then be granted by the County Council.

2 If any of the coal mining features are unexpectedly encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is available on the Coal Authority website at: www.gov.uk/coalauthority

Date : 2 November 2020 Signed
