Grounds for objection:

General comments:I regret that I cannot find an application document which shows the location of the site in relation to the legal routes of public footpaths which might cross or abut the site. I note that in the Design and Access Statement it is stated that the are no public rights of way within the site, but I need to verify this for myself before I comment on the application. It is also stated that no public rights of way will be changed, but again I need evidence of this. Please can I be sent a plan which shows clearly the location of the site in relation to the public rights of way, otherwise I cannot comment.**GDPRTick this box to confirm that you have read and understood the above:**True
