Dear Katja Graham

TOWN AND COUNTRY PLANNING ACT 1990
(DEVELOPMENT MANAGEMENT PROCEDURE) (ENGLAND) ORDER 2015
ARTICLE 18 CONSULTATION WITH HIGHWAY AUTHORITY

PROPOSAL: Two storey side extension to dwelling, with single storey garage & porch extension to front.

LOCATION: 14 Chevin Road Belper Derbyshire DE56 2UW

Derbyshire County Council, the Highway Authority acting in its role as Statutory Consultee has undertaken a full assessment of this planning application. Based on the appraisal of the development proposals the Highways Development Management Manager on behalf of the County Council, under Article 18 of the Town and Country Planning (Development Management Procedure) (England) Order, 2015.

The Highway Authority has considered the above mentioned planning application for a proposed two storey side extension.

The property is currently a two-bedroom dwelling, and the proposed development would increase this to four bedrooms.

Car Parking

In accordance with the highway authority's Parking Guidance for New Developments (PGND) 4.2 Table 2, the minimum number of car parking spaces required for dwellings with 4 bedrooms is 3 spaces.

Details should be provided which demonstrate 3 parking spaces are available within the site frontage, with dimensions which accord with the requirements of Section 8.6 of the highway authority's Parking Guide for New Developments.

Paragraph 4.5.1 of the PGND states that, in all circumstances, garages are not counted towards parking provision.

No electric vehicle (EV) charging facilities are shown but details can be secured by planning condition.

Cycle Parking

PGND section 4.7 stipulates that secure, covered cycle parking should be provided at a minimum rate of 1 space per bedroom i.e. the proposed dwelling should have at least 4 cycle spaces.

PGND section 4.5 confirms that cycle parking can be provided within garages subject to design and location.

Details will be required to show adequate cycle parking and cycle equipment storage facilities and can be secured by planning condition.

The Highway Authority therefore recommends that this planning application should not be determined until the applicant has submitted amended details which satisfactorily address the above issues. The highway authority will comment again following receipt of further information.

Yours sincerely,

Gemma Statham
Transport Development Management
