Hi Linda
I am pleased to advise that our director has signed off the application subject to the comments from officers being adhered to. All documents, including statutory plans have now been sent to our legal team with a request for the licence to be issued. As advised previously the comments from our officers are below.

- the sign should all be located outside of any existing exit visibility sightlines

All materials used must be approved as suitable for a highway / public setting, and installation by suitably qualified and insured personnel
The licence will be issued directly to RTC from our legal services department.

Please do not hesitate to contact me should you have any queries.

Regards
Sue

The Highways Service is currently receiving a high volume of enquiries. In order to manage our workload with the resources currently available to us, and to maintain our statutory functions, we are prioritising our work according to risk. All other enquiries will be responded to in as timely a manner as possible. We thank you in anticipation of your cooperation.

Just a reminder that you can report most highway defects using the online reporting system on the council's website which can be found here. Your enquiry may be dealt with quicker than if it was reported by phone, email or letter as it gets automatically routed by the system, reducing administration time.
