Good Afternoon Rebecca,

Many thanks for sending over the information on the above application.

From an agricultural point of view I can see the sense in having the additional drive.

I think it would be up to the opinion of a highways engineer to decide if the side road that the farm traffic would have to emerge from on to the main road would be better/worse than the existing farm entrance.

I hope this helps in determining the application

Kind Regards

Chris Harvey BSc(Hons) FASAg FRASE
