Notes

Attention is drawn to the attached notes:

1 In respect of Condition 4, the Borough Council's Heritage Consultant advises that the proposed brick and roof material needs to carry the same purpose of assimilating the extensions into the dwelling in order to prevent harm to the Grade I Church of St Michael and Kirk Langley Conservation Area. In this regard as close a match as possible should be obtained. Cladding to the upper floor of the rear elevation would not be supported and any cladding should be in a recessive colour.

2 "The applicant is strongly urged to help meet the Government's commitments to achieve net-zero carbon emissions by 2050, and to meeting the NPPF's environmental objective of mitigating and adapting to meet climate change, including moving to a low carbon economy. Therefore, the applicant is strongly urged to include on-site renewable energy generation (e.g. solar panels), the de-carbonising of heating systems (e.g. air-/ground-source heat pumps) and enhanced levels of insulation beyond those required by present building standards."
