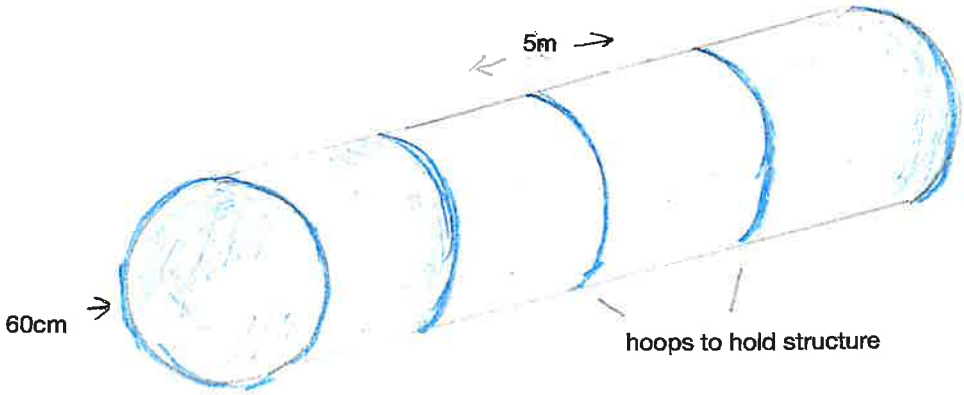
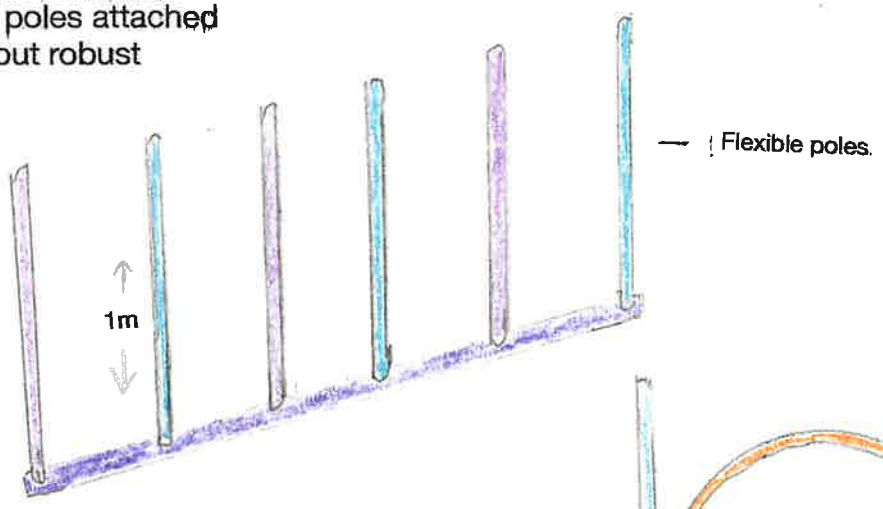
DOG AGILITY EQUIPMENT - AVA/2024/0418 - A Clark-Maxwell

Please see below illustrations of the dog equipment we would like to provide. All equipment will be fully moveable and therefore not permanent. It is hoped that customers would feel they could make agility courses for their dogs or choose a single piece of equipment to train their dogs, enriching the dogs experience in a safe, secure environment.

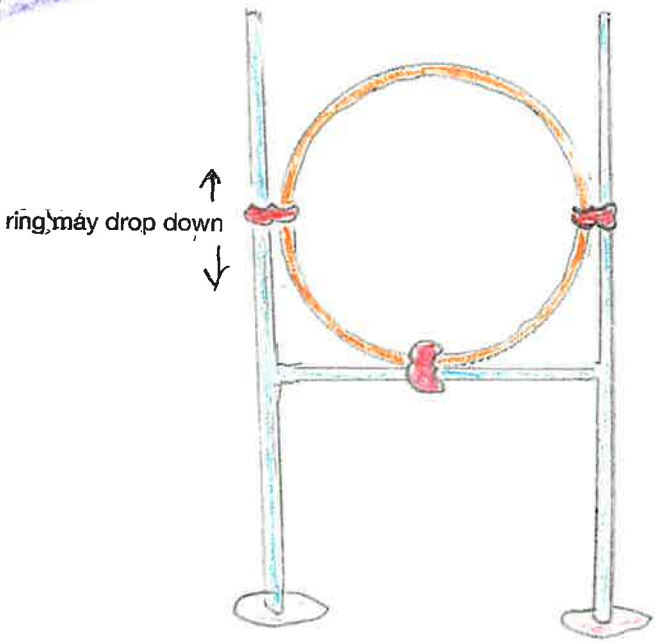
Tunnel - made from plastic sheeting and fixed rings, 60cm by 5m



Weave Poles - selection on brightly coloured fixed spaced poles attached to a base, lightweight but robust



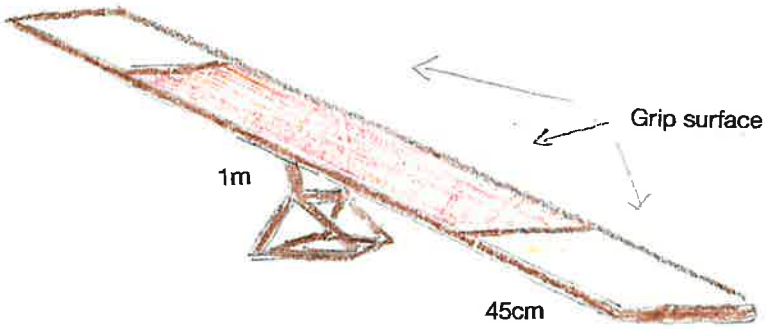
Jump ring - adjustable jump ring placed on a stand



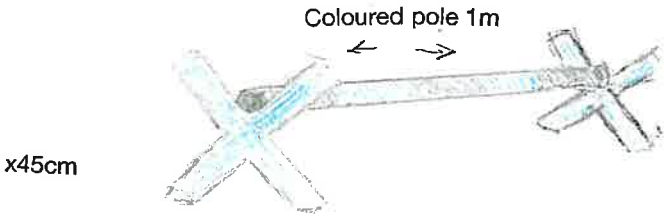
Clips to hold circle

AVA/2024/0418

Dog See Saw - non slip surface, lightweight but strong

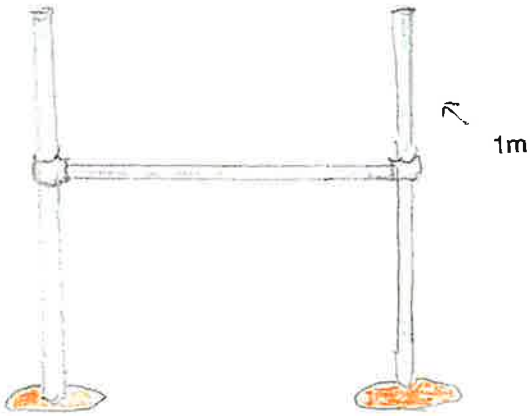


Cavalletti - low set of jumps that can be arranged as liked and placed on top of each other to increase height



Adjustable high jump - height can be increased or lowered

adjustable clip to raise/lower pole



Markers - small disc markers for obediance training

10cm plastic disk
