General comments:I am disappointed that no mention is made in the application of the two public footpaths which will be affected. The vehicular access to the site would run over South Wingfield FP 18. There should be notices informing vehicle drivers that they must give way to walkers. It is not clear from the documents how Crich FP68 which runs through the wood might be affected, but the full width of this path must remain unobstructed at all times and the surface of the path must not be altered without the authority of the county council.**GDPRTick this box to confirm that you have read and understood the above:**True
