Subject:Online submission - comment on a planning application

Submitted via www.ambervalley.gov.uk/planning/development-management/view-a-planning-application/comment-form

Application details:AVA/2020/0567

Installation of a new floodlighting system to the football pitch**Are you a councillor?**No**Do you want the comment you are about to submit to be shown on our website?**

[redacted]

address:clerk@holbrookderbyshire.co.uk**Name of organisation (if applicable):**Holbrook Parish Council**Do you wish to object?**Yes**Grounds for objection:***Light Pollution is considered to be a serious result of any floodlight installation - its effect on wildlife and other environmental factors have the potential to be profound. It is also felt that blocking off residents view of the stars from this edge of village location is unacceptable.
*Increase in noise levels expected if playing periods are extended due to additional lighting. Noise travels further int he dark and will impact the local residents.
*The rural location of the football ground and the proposal for floodlight installation are considered to be mutually exclusive. It is felt there will be increased traffic and increased potential for anti-social activities.**General comments:**As an earlier application for this installation was rejected on the grounds above, we do not believe anything has changed in order for us to change our original objections. Overall, it is felt that an urban environment is more suited to an application such as this rather than a a rural setting.**GDPRTick this box to confirm that you have read and understood the above:**True
