Notes

Attention is drawn to the attached notes:

1 The NPPF & PPG places the responsibility of securing a safe development on the landowner/developer. It may be prudent for the applicant to consider the inclusion of basic ground gas precautions. Whilst these precautions are likely to be better than those of the existing main structure, they may help to negate any theoretical effect that the increased overall footprint of the completed building may cause with regards to ground gas, should any be present in the locality.

Reasons for Granting Permission

In granting permission for this development the Borough Council has taken into account all material planning considerations arising from the views of statutory and other consultees and public representations about the application, Government guidance as detailed in the National Planning Policy Framework and the saved policies of the Adopted Amber Valley Borough Local Plan 2006:

EN16 - Pollution
LS3 - Design
TP6 - Parking
ER11 - Quality and design of development
ER4 - Industrial and storage development
LS1 - Sustainability criteria

In detail:

The development complies with the provisions of the development plan for the locality and raises no unresolved issues in relation to the location of the site, privacy, amenity, character and design, landscape or heritage features and highway safety.

The National Planning Policy Framework (NPPF) is a material consideration in planning decisions. In accordance with Paragraph 38 of the NPPF the local planning authority has approached the decision making process in a positive way to foster the delivery of sustainable development and has worked proactively with the applicant/agent to secure a development to improve the economic, social and environmental conditions of the area.
