CDM 2015.

Works under CDM 2015 are domestic in nature and therefore if a single contractor completes the works they have legal duties to ensure health and saftey is managed. If more than one contractor is required to complete the works, the client must either act as principle designer or appoint a principle contractor to ensure health and saftey is managed throughout construction process.

All dimensions are to be verified on site. Do not scale this drawing. All discrepancies are to be clarified. Drawings are for the purposes of planning approval only. Not to be used for construction.
