For the Attention of: Mr M Penford – Case Officer
Amber Valley Borough Council

[By Email: development@ambervalley.gov.uk]

07th July 2022

Dear Mr Penford

PLANNING APPLICATION: AVA/2022/0570

Demolition of existing single storey garage and erection of new two storey 3 bedroom dwelling (the proposal is a departure to the Adopted Local Plan); 8 Lower Birchwood, Somercotes, Alfreton, Derbyshire, DE55 4NG

Thank you for your consultation notification of 27 June 2022 seeking the views of The Coal Authority on the above planning application.

The Coal Authority is a non-departmental public body sponsored by the Department of Business, Energy & Industrial Strategy. As a statutory consultee, The Coal Authority has a duty to respond to planning applications and development plans in order to protect the public and the environment in mining areas.

The Coal Authority Response: **Fundamental Concern**

I have reviewed the site location plans, the proposals and the supporting information submitted and available to view on the LPA website. I can confirm that the site falls within the defined Development High Risk Area and that a Coal Mining Risk Assessment is required to be submitted to support this application.

The Coal Authority records indicate that the site lies in an area of probable unrecorded underground coal mine workings at shallow depth. Our records also show that the south eastern corner of the site lies in an area of recorded underground shallow coal workings.

Voids and broken ground associated with such workings can pose a risk of ground instability and may give rise to the emission of mine gases.

In accordance with the agreed risk-based approach to development management in the defined Development High Risk Areas, the applicant should be informed that they need to submit a Coal Mining Risk Assessment Report to support this planning application. As no relevant information has been submitted at this time the Coal Authority **objects** to this planning application.

The Coal Authority would be very pleased to receive for further consultation and comment any additional information submitted by the applicant.

Please do not hesitate to contact me if you would like to discuss this matter further.

Yours sincerely,

[redacted]

Peter Woodcock | BSc (Hons)
Trainee Planning Manager

Disclaimer

The above consultation response is provided by The Coal Authority as a Statutory Consultee and is based upon the latest available data on the date of the response, and electronic consultation records held by The Coal Authority since 1 April 2013. The comments made are also based upon only the information provided to The Coal Authority by the Local Planning Authority and/or has been published on the Council's website for consultation purposes in relation to this specific planning application. The views and conclusions contained in this response may be subject to review and amendment by The Coal Authority if additional or new data/information (such as a revised Coal Mining Risk Assessment) is provided by the Local Planning Authority or the Applicant for consultation purposes.
