We can confirm that each of the six bedrooms will not have kitchen facilities within the bedrooms and all solely rely on the communal kitchen/living space shown in green on the plan.

We would however like to clarify that we have applied for a Sui Generis use as the rooms are all large and capable of having a couple living in each of them. We would like the number of occupants to remain undefined though and let this be controlled by HMO licensing who determine what amenities are suitable for how many tenants.
