General comments:I am rather confused about the number of vehicles which will use the access drive to the site. There are 14 car parking spaces, which I assume are to be used by both the occupiers of the holiday cottages and users of the dog exercise area. Since the dog-exercisers would not spend much time using the exercise area, there might be a considerable number of vehicles using the drive. This drive carries a public footpath, Crich FP36, and I am concerned that the safety, convenience and enjoyment of walkers using the path is not compromised by the development. I trust that the planning officer will take this into account when deciding whether or not to grant planning permission.**GDPRTick this box to confirm that you have read and understood the above:**True
