Subject: RE: AVA/2023/0231

Hi Laura,

AS this is a full planning application (if granted) it will supersede the protection afforded to the hedgerow under the Hedgerow Regulations 1997. Although the removal of the hedgerow will be detrimental to biodiversity and the character and appearance of the area the existing hedgerow is sparse in places and would benefit from improvement. The additional planting is adequate to compensate for the length of lost hedgerow in the medium to long term. The management (laying and cutting of the hedgerow) and retention in perpetuity, should be secured by way of condition.

If you need anything further, please let me know.

Thanks
Fergus
