1 The applicant is strongly urged to help meet the Government's commitments to achieve net-zero carbon emissions by 2050, and to meeting the NPPF's environmental objective of mitigating and adapting to meet climate change, including moving to a low carbon economy. Therefore, the applicant is strongly urged to include on-site renewable energy generation (e.g. solar panels), the de-carbonising of heating systems (e.g. air-/ground-source heat pumps) and enhanced levels of insulation beyond those required by present building standards.

Advice in relation to sustainable energy measures and any need for planning permission can be found at

2 The deposit of mud or other items, and/or the discharge of water, onto the public highway are offences under Sections 149 and 151, Highways Act 1980. The applicant, any contractors, and the owner/occupier of the land must therefore ensure that nothing is deposited on the highway, nor that any soil or refuse etc is washed onto the highway, from the site. Failure to prevent this may force the highway authority to take both practical and legal action (which may include prosecution) against the applicant/contractors/owner or occupier of the land.

Reasons for Permission

In granting permission for this development, the Borough Council has taken into account all material planning considerations arising from the views of statutory and other consultees and public representations about the application, Government guidance as detailed in the National Planning Policy Framework and relevant Neighbourhood Plans, and policies of the Amber Valley Borough Local Plan 2022-2040.
