Details of the pre-application advice received

When we asked about installation of an air source heat pump (and EV charger for which we have subsequently been given LB consent), the following advice was given:

"The location of an air source heat pump and an EV charging point would need careful consideration."

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
