Dear Rebecca Godson,

TOWN AND COUNTRY PLANNING ACT 1990
(DEVELOPMENT MANAGEMENT PROCEDURE) (ENGLAND) ORDER 2015
ARTICLE 18 CONSULTATION WITH HIGHWAY AUTHORITY

PROPOSAL: Change of use of part of an existing residential property and paddock to operate a dog day care business for up to six dogs

LOCATION: 331 Over Lane, Belper DE56 0HJ

Derbyshire County Council, the Highway Authority acting in its role as Statutory Consultee, has undertaken a full assessment of this planning application. Based on the appraisal of the development proposals the Highways Development Management Manager on behalf of the County Council, under Article 18 of the Town and Country Planning (Development Management Procedure) (England) Order 2015, recommends that the determination of this application should be deferred pending the submission of additional information.

Background

Further to the Local Highway Authority's (LHA's) previous comments on this planning application, further information has been provided by the applicant in the form of an updated plan submitted via email dated 12/6/26.

Site Boundary Clarification

Whilst the applicant has previously noted that they have full control and ownership of the land connecting the residential curtilage and the paddock, a revised site location plan has not been submitted to confirm this. The LHA assumes that the LPA are satisfied that the applicant has the required control/ownership.

Number of Dogs

The applicant has noted that dog drop-off and collection will operate on a pre-booked appointment-only basis and that no more than one customer vehicle will be present on site at any given time, with staggered time slots for both drop-off and collection. Customers will also be instructed not to arrive early and only one customer vehicle will be permitted on site at any one time.

Parking

The applicant has noted that customer parking will be accommodated within the site boundary, with sufficient space available for both the dwelling and the proposed dog day care use.

The applicant has submitted drawing ref. 49172_01_P Rev 0 showing 2 tandem parking spaces associated with the dwelling, to the side of the property, together with 1 space for the dog day care, to the front of the dwelling. Due to the size of the dwelling (4 bedrooms), 3 spaces associated with the dwelling are required.

In line with the LHA's Parking Guidance for New Developments (PGND) tandem parking for an individual residential dwelling is permitted but is limited to no more than 2 vehicles.

In addition, the proposed parking layout appears different to that approved under planning application AVA/2025/0809.

The applicant should therefore submit a revised parking layout plan that illustrates sufficient parking for both the dwelling and the proposed dog day care business, i.e. 3 spaces with no more than two in tandem associated with the dwelling and a single space for the dog day care that does not block access to parking for the dwelling and vice versa.

The above may result in alterations to the approved layout associated with the extant permission at the site, which may require submission of an application to vary that permission.

Staffing

The applicant has confirmed that the business will be operated solely by the applicant and no additional staff. This can be conditioned accordingly.

Conclusion

The LHA recommends that this planning application should not be determined until the applicant has submitted further details which satisfactorily address the above issues.

The LHA will comment again following receipt of further information.

Yours sincerely,

Robert Smith
Transport Development Management
